Welcome

Children's Centres bring together care, education, health, community development activities and family services for families and their young children from birth to eight years of age. Children's Centres help parents and children get the support they need, when they need it, within their own community.

'Learning Together' is an Education Department program for families with children aged birth to four. The program is based on national and international research affirming the crucial importance of the very early years of life in laying the foundation for children's learning and well-being.

At Port Augusta we have playgroups, family learning, and craft groups.

As of week 2 of term 1, 2013 we now have a Pre-School. Please talk to us to if you'd like to learn more.
